Code-Layout, Readability and Reusability

Date	29 September 2026
Team ID	SWTID-2026-3672
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the structure, readability, and reusability of the ServiceNow configuration for automating standard laptop procurement. The project uses clearly named Catalog Items, variables, Flow Designer steps, approval logic, tasks, and notifications.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform configuration formatting and readable Flow Designer action layout	Yes	
2	Proper File / Configuration Structure	Catalog Item, variables, flow, groups, tasks and notifications are logically organized	Yes	
3	Meaningful Variable Names	Variables clearly identify employee, department, laptop model, RAM and justification	Yes	
4	Function / Method Names	Flow, actions, conditions and configuration elements use descriptive names	Yes	
5	Code Comments	Descriptions/documentation are used where configuration logic needs explanation	Yes	
6	Modular Design	Approval, task creation, notifications and status updates are separated into logical flow steps	Yes	
7	No Redundant Code	The automation avoids unnecessary duplicate configuration or repeated processing	Yes	
8	Error Handling	Rejected approval and workflow status paths are handled explicitly	Yes	

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Standard Laptop Request Catalog Item	ServiceNow Service Catalog	Employee laptop request workflow	High
2	Standard Laptop Variables	ServiceNow Catalog Variables	Reusable input structure for standard hardware requests	High
3	Laptop Procurement Flow	ServiceNow Flow Designer	Approval and procurement automation	High
4	Approval Logic	Flow Designer Approval / If	Reusable approval pattern for procurement requests	Medium
5	Procurement Task	ServiceNow Catalog Task	Reusable IT procurement work item	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Logical ServiceNow configuration and Flow Designer sequence
Readability	5	Descriptive names and clear flow stages
Reusability	5	Catalog variables, approval logic, and procurement tasks can be reused
Documentation / Comments	4	Descriptions and setup notes document the main configuration
Overall Score	5	Structured for maintainable ServiceNow PDI implementation
